Response to Amendment

The amendments to the claims will not be entered because the scope of the claims is changed; new issues are raised which would require a further search and/or consideration. Specifically, the scope of claims 1 -4, 6-10, and 20-21 since the flame retardant is now required to be made by the specific method of claim 22 which requires a reconsideration of structure produced by the process.

Arguments to the not entered amendments will not be addressed.
